

**Of the Miners.
By the Miners.
For the Miners.**

Who we are?

A mining solutions company with a state-of-the-art facility for drill bit re-sharpening. We offer problem solving services including supply chain improvements for the local gold mines, mining contractors, and drilling companies.

Why us?

- We Are Mining Professionals
- We Are Solution Providers
- We Are Community Partners

Give us an opportunity.

Let us identify unique solutions to your most common concerns. We will recommend a custom fit solution at no charge. Our initial research and problem solving is provided to our clients at no cost. **That's our promise.**

Let's talk about our services.

Drill Bit Sharpening

Norsmiths has a cutting-edge re-sharpening facility for drill bits located in Kirkland Lake. Our site, operated by local people, is the only such site in the region. Norsmiths can re-sharpen 1500+ drill bits effectively each day. Norsmiths has the ability to serve all local mines effectively, as well as all other mining and drilling businesses in the north.

Mining Solutions

We value our ability to provide unique solutions that will deliver superior service & support through increased performance and reliability. Norsmiths value added solutions provide both economic benefits and superior satisfaction of our clients needs. Our past experience in Mining, Marketing and Management provides our clients a source of services to enhance the economic performance of their operations. **Let's talk.**

Product Sourcing

Supply chain issues commonly affect locations in Northern Ontario. Norsmith has decades of experience in the strategic sourcing of products & services, regardless of their category and/or originality. Our worldwide relationships with many potential manufacturers can often mitigate difficulties commonly experienced by our clients.

On the Mile of Gold,

In the heart of Kirkland lake.

Give us your trust. Let's talk!
